To the:
President and Members of the Latvian Society of Internal Medicine

September 11th, 2017

Dear President and Members,

With an experience of 9 International Congresses, we are now excited to be organizing the 10th International Congress of Internal Medicine, which will be held on March 22-24, 2018 in Athens, Greece.

This Annual International Congress is an Independent International Congress of Internal Medicine organised by the Institute of Internal Medicine and Hepatology and the Department of Medicine and Research Laboratory of Internal Medicine, University of Thessaly Medical School, hosting more than 800 attendees around the world and with the active participation of established and distinguished international scientists and experts.

The scientific program of the forthcoming 10th International Congress includes the latest developments and innovations of Internal Medicine. The Congress also provides young colleagues with a great opportunity to present their work, research and clinical experience through oral presentations and e-posters covering various fields of Internal Medicine. Therefore, we encourage interested colleagues to actively participate in the program and submit abstracts of their work through the website of the Congress (online submission is now OPEN; abstract submission deadline: November 30, 2017 – deadline will not be extended).

Many important scientific authorities will participate such as the:
- European Society for Swallowing Disorders
- Hellenic Association for the Study of Diabetic Foot
- Hellenic Association for the Study of the Liver
- Hellenic Diabetes Association
- Hellenic Sepsis Study Group
- Hellenic Society of Internal Medicine
- Hellenic Stroke Organization
As in the previous year, the Congress will be endorsed and supported by the Foundation for the Development of Internal Medicine in Europe (FDIME) and has also been applied to the European Federation of Internal Medicine (EFIM).

With this short introduction, please accept this letter as an invitation to participate and support the 10th International Congress of Internal Medicine. In particular, we offer to your members a number of five (5) FREE registrations to our Congress.

We strongly believe that your cooperation will be of a high value and we very much appreciate your support in the promotion of this important event. More specifically, we would greatly appreciate if you could accept and share details of our Congress with your society members and also insert a banner to the website of your society with our Congress link (www.internalmedicine-uth.gr). Please find attached all the necessary material (banner, poster, program, registration form) in order to share it with your members. From our side, we would be more than happy to include in our Congress website “supported congresses” a link to your events and congresses.

Conferre SA (www.conferre.gr) is the official PCO (Professional Congress Organizer) of the 10th International Congress of Internal Medicine and will be pleased to cooperate with you in the framework of the above actions.

Looking forward to receiving your positive reply at info@conferre.gr.

With my warmest regards

George N. Dalekos

President of the Organizing Committee
President, Institute of Internal Medicine and Hepatology
Vice President, Internal Medicine Society of Greece
Head, Department of Medicine and Research Laboratory of Internal Medicine
Medical School, University of Thessaly, Larissa, Greece
